

IDS_Theory_Quiz1

Total points 1/1 ?

Program *

☒ BCA

Roll_No. *

Name *

✓ Unstructured data is not organize. True or False *

- ☒ True
- ☐ False
- ☐ May be True or false
- ☐ can not say

✗ Among the following identify the one in which dimensionality reduction reduces is *

- ☐ performance
- ☐ collinearity ✓
- ☐ entropy
- ☒ stichastics ✗

✓ Machine learning is a subset of which of the following *

1/1

- ☐ data science
- ☐ deep learning
- ☒ artificial intelligence ✓
- ☐ data mining

✓ Identify the key data science skills among the following *

- ☐ machine learning
- ☐ statistics
- ☐ business intelligence
- ☒ all of the above ✓

✓ What are the four v's of big data *

- ☐ validity, valiant, vast, vitality
- ☒ volume, velocity, variety, veracity
- ☐ volume, versatile, velocity, vivency
- ☐ veracity, valuable, valorous, vantage

✓ What involves design of smart machines/algorithms that can perform tasks that generally require human intelligence *

- ☐ Data mining
- ☐ Deep learning
- ☒ Artificial Intelligence
- ☐ Business Intelligence

✗ When the value of a variable can be measured it is called *

- ☒ stuctured data
- ☐ unstructured data
- ☐ categorical data
- ☐ continuous data ✓

✓ When the mean and the median values are close, the data would be symmetrical following a which distribution *

- ☒ normal distribution
- ☐ left skewed
- ☐ right skewed
- ☐ not skewed

✓ What type of plot can be drawn to clearly identify outliers *

- ☐ Histogram
- ☐ Bar plot
- ☒ Boxplot
- ☐ Scree plot

✓ Which of the following gives the degree and strength of relationship between variables *

- ☒ correlation
- ☐ regression
- ☐ factor analysis
- ☐ classification

✗ Which variable is influenced by the independent variables *

- ☒ numeric variable
- ☐ string variable
- ☐ dependent variable ✓
- ☐ independent variable

✓ When the correlation between the independent variables is high, there exists_____ between the variable. *

- ☐ correlation
- ☐ regression
- ☒ multicollinearity
- ☐ classification
